The S5 Live Search module is demo'd at the top of this page and can be used on any Joomla template.

Allow your users to search quickly and without loading or refreshing pages with this AJAX search module! This month you can choose two either show or hide the button and the formatting will automatically adjust. Simply publish the module to the 'search' position.

The image displays two variations of the Shape 5 Live Search module. The top variation features a search input field with a magnifying glass icon and a 'Search' button. The bottom variation features a search input field with a magnifying glass icon and no button.
